## DETAILED ACTION

### *Election*

This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. First embodiment, page 3, paragraph 10.
- II. Second embodiment, page 3, paragraph 11.
- III. Third embodiment, page 3, paragraph 12.
- IV. Fourth embodiment, page 4, paragraph 13.
- V. Fifth embodiment, page 4, paragraph 14.
- VI. Sixth embodiment page 4, paragraph 15.
- VII. Seventh embodiment, page 4, paragraph 16.
- VIII. Eighth embodiment, page 5, paragraph 17.
- IX. Ninth embodiment, page 5, paragraph 18.
- X. Tenth embodiment, page 5, paragraph 19.
- XI. Eleventh embodiment, page 5, paragraph 20.
- XII. Twelfth embodiment page 6, paragraph 21.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 2116

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to David Fogg, Reg. No. 32,131 on 23 November 2004 to request an oral election to the above restriction requirement, but did not result in an election being made. Specifically, due to the nature of the number of claims applicant agreed that an election requirement should be made in writing.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 2116

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James K. Trujillo whose telephone number is (571) 272-3677.

The examiner can normally be reached on M-F (7:30 am - 5:00 pm) First Friday Off.
